

## Press Release

Fourstar Connections, Inc.

Release date: October 26, 2009

### Fourstar Connections Achieves ISO 9001-2008 Certification

Hudson, MA, October 26, 2009 – Fourstar Connections, Inc. is a contract manufacturing organization servicing OEMs throughout North America. They announced the successful completion of their annual surveillance audit resulting in the upgrade of their certificate to the new ISO 9001:2008 standard. Fourstar Connections' initial ISO 9001 certification dates back to November 3, 2003.

“We have been working with Intertek Testing Services since 2003 and the ISO9001 certification process and standard is an essential part of Fourstar Connections commitment to quality and customer satisfaction. The certification to ISO 9001:2008 is a significant achievement and a positive reflection on the entire organization” said Phil Holman President and Owner of Fourstar Connections, Inc.

Fourstar Connections core competency includes: custom cable assemblies, mechanical sub assemblies and turn-key box build assemblies. The products manufactured by Fourstar Connections are used in Medical, Homeland Security, Military, Computer and Industrial applications. They are proud of their quality policy. Pete McGuire V.P. of Sales & Marketing states “We deliver what we **Q.U.O.T.E;** Quality, **U**nsurpassed Service, **O**n-time Delivery, **T**echnical Expertise and **E**xcellence. This is our commitment to our customers and it is reflected in everything the company undertakes”.
